

LET'S REINVENT THE SEAFRONT!

Dieppois and tourists alike, each footstep leads us to the seafront. It is a remarkable place which belongs to everyone. It is lively all year round, with lots of different activities organised on the lawns or on the beach. Today however, it needs to be rethought to meet with the public's expectations.

The seafront will remain a popular place. Its lawns, Europe's largest, will be preserved. The parking spaces will be rethought but will stay free. The different networks (water, lightning, sanitation) will be upgraded and the beach huts, along with

the commercial huts, will be replaced.

A large consultation will take place from June to September to identify the key issues, the different uses, the strengths and weaknesses of the site, collect feedback but especially to dream and imagine the seafront's future. Through this questionnaire, you can take part in the reflection. Tell us all what you think about the seafront, what you do there and how you would like to see it look in the future: animations, transportation, environment, businesses...
